

21 TRAVEL OPTIONS FOR 2021

07/01/2020

If you're a travel or "experience" junkie like me, you're always dreaming of your next vacation. With wanderlust in mind, I have rounded up the hottest trip suggestions to consider for your future travels. I've categorized them to suit your travel preference, and researched a variety of options that include destinations from all over the world {for the adventurous traveler}, close to home {for the cautious traveler}, and all the way across the border {for those planning their great escape}.

From adults-only resorts for those quarantined at home with littles and romantic retreats for lovebirds forced to social distance from their sweetie, to family getaways that are much needed. For frontline workers missing quality family time and friend-cations for besties who want to kick Zoom to the curb, we've got you all covered.

#13 The Kartrite Resort & Indoor Waterpark – Monticello, N.Y. The Kartrite Resort & Indoor Waterpark presents a modern-meets-mountain family adventure in the Catskills – including New York's biggest indoor waterpark heated to 84 degrees year-round, with more than 10 slides and water adventures boasting daring drops and gnarly waves, a not-so-lazy river and indoor-outdoor pools. All-suite accommodations welcome families of all sizes, along with seven restaurants and bars, hiking trails, free daily activities and an indoor entertainment center (ropes course, rock climbing, arcade, mini bowling, laser tag and virtual reality). www.thekartrite.com
